**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Let the internet be part of the FREE MARKET SYSTEM and continue to support broadband competition. I live in San Francisco, CA and, even though it may be hard to believe, we are limited mostly to 2 broadband providers Comcast (with it notoriously poor service) and AT&T which continues to tell me they can't provide anything faster the 2.5 GB per second DSL (unreliable) service to our apartment. We live right smack in the center of San Francisco. Luckily we found an alternative in a company called Sonic that provides dual DSL that can provide at least 7GB per second on a reliable basis.

Sincerely,

Mark Wenning
